

## Online Documentation

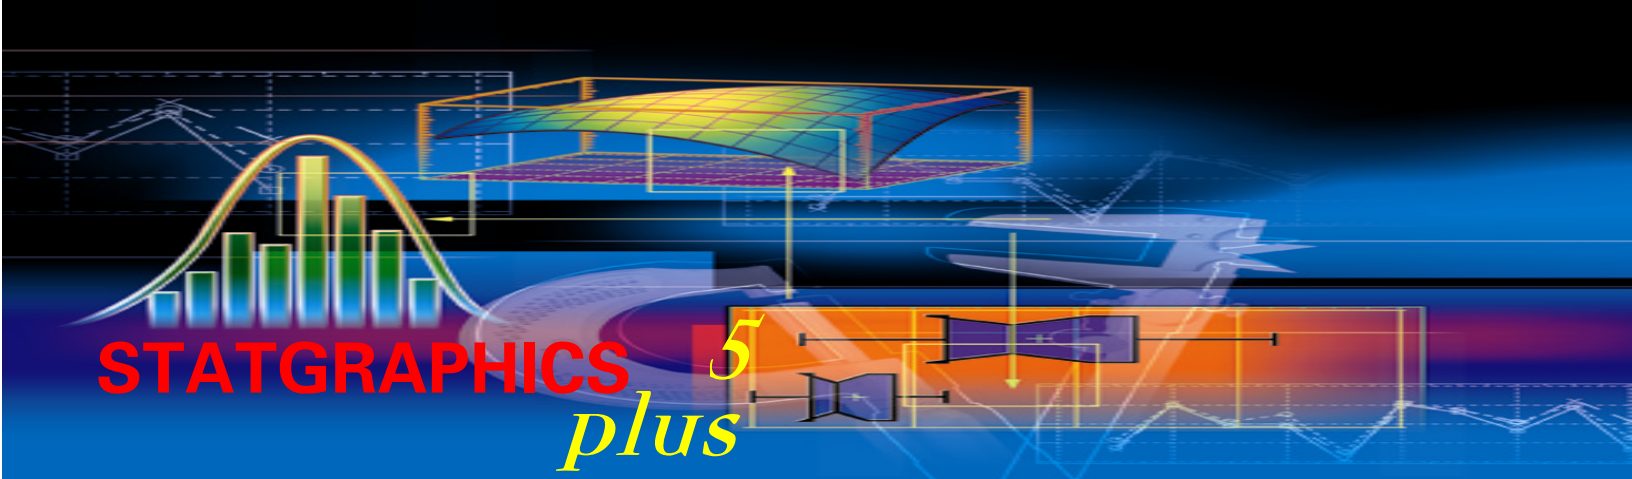

The Version 5 release of STATGRAPHICS *Plus* contains changes, including enhanced access to the documentation from this central launcher, updates for the new features and a PDF version of the base system manual. That means that all your manuals are just mouse click away. Simply click on a manual link (you know it has focus when the cursor changes) to launch it in Adobe Acrobat. Within Adobe Acrobat reader you can view the documentation on your computer screen, find keywords in a document or search all documents using the index (see Adobe 4.0 guide for details).

You will need to have previously installed Adobe Acrobat reader 4.0 or later. If you do not have the Adobe Acrobat Reader installed on your computer, you may download a free copy from: [www.adobe.com](http://www.adobe.com)

- References – References used for the advanced analyses.
- Calculations – Collection of the calculations used in the advanced analyses.
- Glossary – Glossary information for the advanced analyses
- Features – A list of the features available by Module
- Tutorials – Online access to the tutorials on included on the CD.  
Additional tutorials are available at [www.statgraphics.com](http://www.statgraphics.com).

## Online Manuals

- Advanced Regression
- Design of Experiments
- Multivariate Methods
- Quality Control
- Time-Series

## Tutorials

Welcome to the STATGRAPHICS Plus for Tutorials. These tutorials are provided to help you become familiar with our product. They are designed for fully operational versions of STATGRAPHICS Plus Professional so certain functions cannot be performed by all versions of the product.
